Eaglesoft is the most intuitive, easiest-to-use practice management software in the industry. And now, Patterson Dental is pleased to announce Eaglesoft 17, which continues to give you the power to run a smart and efficient practice.

Its revolutionary new features simplify your daily routine. Many enhancements came from customer suggestions, so Eaglesoft truly works to bring greatness to you and your practice.

Here are the Top 10 ways Eaglesoft 17 will help you enhance the patient experience and practice lifestyle.

1. Customized Medical History
   Now fully customizable to ask the medical history questions you want.

2. Eaglesoft Web
   Enables you to view your schedule, patient accounts, medical history, prescription history, proposed treatment and clinical images while away from the office. You can also assign tasks.
   *Available early 2014

3. Patterson Auto Update (PAU)
   Offers the ability to receive future Eaglesoft updates via the web – you will no longer need to use a disc to install.
CDT Update

The 2013 CDT codes are available for you to install.

6. Increased security on provider/patient notes

A new security setting is available to make Provider Notes editable by the creating Provider only.

5. Eaglesoft News Feed

An RSS button in the upper left corner of your screen will provide you with the latest news from Eaglesoft regarding your software and technology updates.

4. Eaglesoft 3D viewer by Dolphin

Allows you to import 3D images into Eaglesoft and to use some of the Dolphin 3D tools to manipulate and enhance images. May require the purchase of a DICOM module for Eaglesoft.

7. CareCredit

The CareCredit bridge provides a direct link to process credit applications – automatically prepopulated with your patient’s information.

6. CDT Update

The 2013 CDT codes are available for you to install.

8. Integrated Clinician Lite

For Eaglesoft Clinician users, Eaglesoft now bridges with Emdeon’s Clinician EHR Lite.

9. Exposure Meter

This new feature will inform you if you are not using the optimum exposure for your Schick 33 digital images.

10. Eaglesoft News Feed

An RSS button in the upper left corner of your screen will provide you with the latest news from Eaglesoft regarding your software and technology updates.
